What are residential solar solutions in Canberra?

Our residential solar solutions in Canberra are designed to meet your household's energy needs, roof size, and budget. We offer system sizes from 5kW to 10kW and use only trusted solar brands to ensure long-term performance and savings.

What size Solar System do you offer in Canberra?

We offer system sizes from 5kW to 10kW and use only trusted solar brands to ensure long-term performance and savings. With local knowledge and expert installation, we help Canberra homeowners enjoy energy independence, lower bills, and a more sustainable future.

Why should you choose a solar battery installation service in Canberra?

Our solar battery installation services in Canberra allow you to store unused solar energy for use at night or during blackouts. We offer leading battery brands such as Tesla Powerwall, Alpha ESS, and Sungrow, providing reliable backup power and greater energy independence.

Are solar panels a good investment in Canberra?

Yes, solar panels are a good investment in Canberra. With 4.8 sun hours per day, households can lower electricity bills and increase energy independence. Self-consumption is the key to savings, as feed-in tariffs (FiTs) are low (7-10c/kWh). Payback period: Typically 4 to 8 years, depending on system size and usage patterns.
